

Monthly Development

As of August 31, 2026, the Net Asset Value (NAV) per share of Private Equity Holding AG (PEH) stood at EUR 159.10 (CHF 149.42), representing an increase of 1.7% in EUR (2.6% in CHF) since July 31, 2026.

The portfolio performance was positive in August despite adverse FX movements. The main drivers were positive valuation adjustments across the majority of PEH's investments, including a venture fund specialising in early-stage and growth equity investments in the US, Alpha CEE Opportunity IV, Investindustrial Growth III, and direct co-investments in a wood pellets manufacturer and an artificial intelligence software provider.

The portfolio was cash flow positive during the reporting period, with total distributions of EUR 2.3m compared to EUR 1.5m paid into the portfolio. PEH received noteworthy distributions from Mid Europa Fund IV, which distributed proceeds from the partial sale of Allegro, a Polish e-commerce platform, as well as from Mid Europa Fund V, which distributed proceeds from the sale of Cargus, Romania's leading courier, express, and parcel service provider.

Disclaimer

The number of outstanding shares used for calculation of the Net Asset Value per share amounted to 2,400,656 as of August 31, 2026 (July 31, 2026: 2,400,656). The calculations are prepared in accordance with International Financial Reporting Standards (IFRS) and pursuant to the guidelines of Invest Europe (formerly known as the European Venture Capital Association). The valuations of the fund investments are based on the most recent reported net asset values (NAVs) of the funds. In estimating the fair value of unquoted direct investments, Private Equity Holding AG considers the most appropriate market valuation techniques. The fair value of listed direct investments is the market value. The NAV of Private Equity Holding AG is calculated at the end of each month under a going concern assumption. The different reporting cut-off dates of the individual companies and funds in which participations are held can lead to short-term distortions and cause discrepancies between the published NAV and the actual total value of Private Equity Holding AG's net assets. Please note that the financial data in this newsletter is unaudited. The accuracy of the information cannot be guaranteed and no liability shall be accepted in this respect. This newsletter is for information only and does not constitute an offer to buy or sell PEH-shares.

Overcommitment is calculated as follows: (unfunded commitments - net current assets) / (non-current assets - non-current liabilities).
